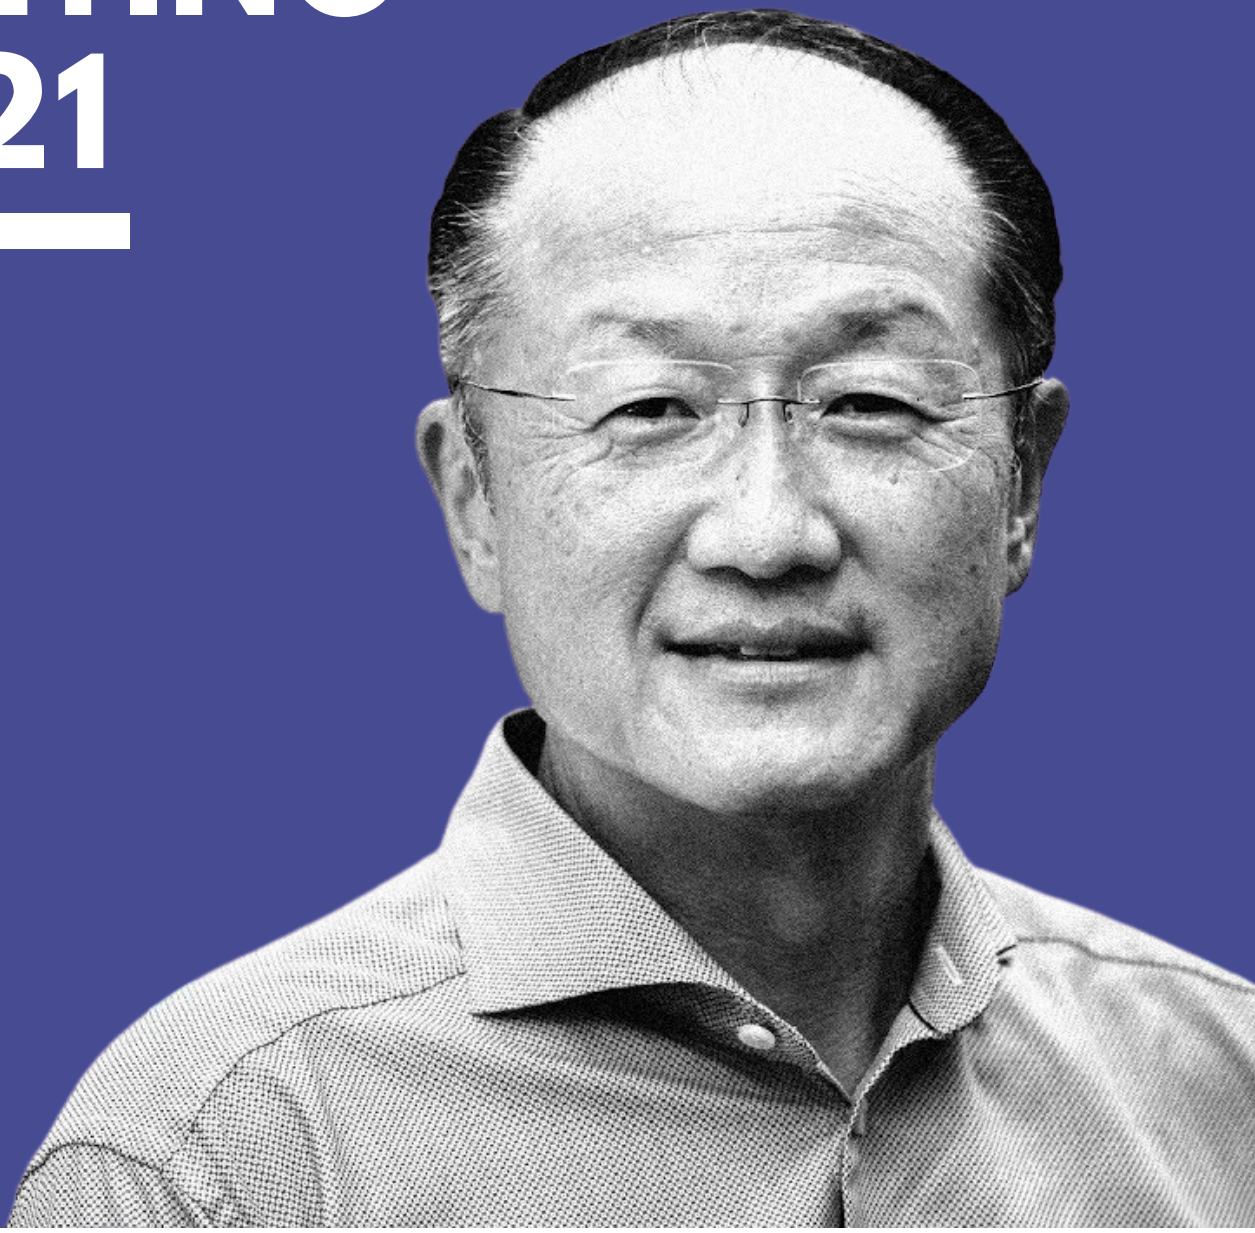
ANNUAL MEETING 2021



Community Foundation of Greater Muscatine

MISSION

Our MISSION is to actively work to improve the quality of life in Muscatine County through philanthropy.

How do we define philanthropy?

Simply - giving. Giving money, time, and leadership.
And, we do it together.

"If you are going to live, leave a legacy. Make a mark on the world that can't be erased."

CORE VALUES

FUTURE-FOCUSED
Action-oriented leadership, with a long term view

BOLD
Constantly evolving, courageous, innovative, and entrepreneurial

PARTNERING
Collective and collaborative in harnessing resources and expertise

INCLUSIVE
Deep respect for people, listen and build proximity to the voices of all

RIGOROUS
Accountable, transparent, alignment with industry-leading standards

COMMUNITY BUILDERS

We are Community Builders. We work with donors, both businesses and individuals, who make contributions to the causes they care most about.

We invest and deploy capital by providing grants to support nonprofits, charitable activities, and scholarships in the community. And, we serve as a collaborator and connector to help address pressing community priorities, such as health, education, and housing.

Established in 1999, the Community Foundation of Greater Muscatine was among the first 100 in the nation to be confirmed in compliance with National Standards for U.S. Community Foundations.

Our Board and organizational leadership collaboratively embrace taking a bold, future-focused aim at understanding and strengthening infrastructural frameworks to overcome challenges.

This intentional approach **positions our community, our neighbors, and our children for even brighter tomorrows.**

As we serve hundreds of charities and thousands of residents each year, **the trust so many have in the Community Foundation** is evident in the generosity of community donors and the continual growth of our assets as we surpassed $63 million in 2021.

These assets provide the opportunity for our community to thrive and grow today, and for many years in the future.

FEATURED SPEAKER

DR. JIM YONG KIM

Dr. Kim has devoted his life to changing global development, health, and education policies in an effort to shift people's sense of what is possible. Kim was dubbed 'the Healer' by Brown University.

He was born in Seoul, South Korea in 1959 and moved to Muscatine in fifth grade with his parents, Dr. Nhak Hee and Dr. Oaksook Kim, and siblings, Bill and Heidi, when his father began practicing dentistry in our community. Dr. Kim's family resided on Colony Drive.

He was the 1978 Muscatine High School valedictorian, class president, and participated actively in extracurricular activities including Model UN, basketball, golf, and football. (Jim humbly added that he was quarterback of the football team during the longest losing streak in Muscatine history.)

He earned his B.A. in Human Biology from Brown University and his Ph.D. in Anthropology and M.D. from Harvard. It was there that he co-founded Partners in Health with friends Ophelia Dahl and Paul Farmer (pictured below).

Dr. Kim has served in strategic national and global life-enhancing roles, including:

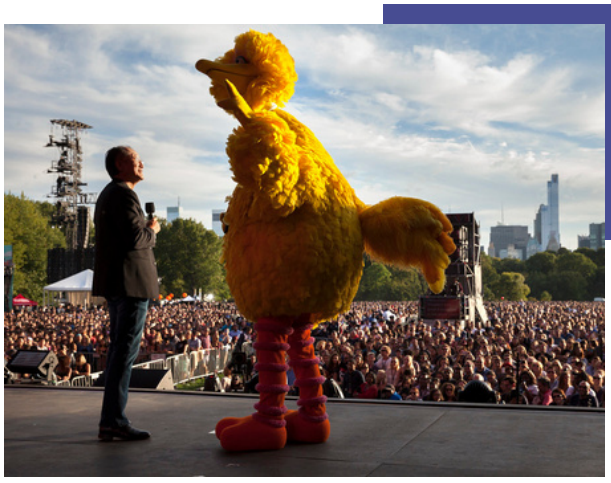
- Vice-Chairman, Infrastructure Partners (2019-Present)
- **President, World Bank (2012-2019) - named to the position by President Barack Obama**
- President, Dartmouth College (2009-2012)
- Director, World Health Organization (2003-2006)
- Professor and Lecturer, Harvard Medical School (1993-2009)
- **Co-Founder and Executive Director, Partners in Health (1987-2003)**

Dr. Kim's awards and honors include receiving a MacArthur Fellowship 'Genius' award, being named as one of America's '25 Best Leaders' by U.S. News & World Report, receiving the Carnegie 'Greatest Immigrants Award', and being recognized as one of TIME Magazine's '100 Most Influential People in the World'.

He is a sought-after speaker and contributor, presenting to the world's most powerful leaders, as well as prestigious global health, economic, and student forums.

Dr. Kim and his work has been featured in 'Mountains beyond Mountains', Tracy Kidder's best-selling book; in Ted Talk, 'Doesn't Everyone Deserve a Chance'; and on Netflix in the documentary 'Bending the Arc', produced by Ben Affleck and Matt Damon.

We are honored to host Dr. Kim as a guest speaker to celebrate Community Foundation of Greater Muscatine's 2021 Annual Meeting.



MUSCATINE IS MY HOMETOWN

Neighbors and Friends,

Muscatine, Iowa, is my hometown. My family moved here when my father was offered a job to run the Batterson store in Downtown Muscatine, back in the 1950s. My parents later opened Fox's clothing store, and that is when I joined the picture. I spent a great deal of time in Downtown Muscatine growing up, especially in the summer when I would invareably get on my mother's nerves and she would send me to work with Dad so she could have a little peace.

Charla on Woodlawn Ave. a few years ago

I attended Grant Elementary, Central Middle School, and the Muscatine High School. I received my two year degree from MCC, and commuted to the University of Iowa. My husband John moved to Muscatine in 1977, to attend MCC, and Muscatine became his home. We choose to raise our three boys here. We have been deeply blessed to live, raise our family, and work in Muscatine County.

I joined the Community Foundation of Greater Muscatine in 2018, an have been privileged to follow and **work with influencers, like you, who change and strengthen our communities** and our neighbors by choice of your words and the follow through of your generosity and actions.

An uncommon collection of leaders, visionaries, and friends have shared time and treasures to inspire and shape our communities' future. You know them, they are young and old, craftsman and shop owners, moms and dads, daughters and sons, they are students and educators, health-filled and health disadvantaged, musicians and artists... The sheer beauty of the Community Foundation is the vast variety of its contributors. There is no mold conformed to in make-up or thought; bringing similar and dissimilar beliefs and passions. But all bring a singular inter-drive to **strengthen our communities today while inspiring our tomorrows.**

The work being done through philanthropy through the Community Foundation helps guide the dialogue and direction every single day. I thank you for that. And, I invite those that haven't yet taken part, to **join in**.

IMPACT IN ACTION

a small sampling of the generosity...

JOE W. AND BETTY L. RAUCH MEMORIAL ENDOWMENT FUND

A grant to Bethany for Children & Families from the **Joe W. and Betty L. Rauch Memorial Endowment** allowed a Mental & Behavioral Health Therapist the opportunity to provide services to uninsured and underinsured children in Muscatine County.

The Endowment Fund was initiated in 2019 to honor Betty and Joe's legacy, ideals for humanity, and love of the Muscatine community.

A guiding purpose of the Fund is to facilitate our community's continued growth and vibrancy with special focus on maximizing the wellbeing of children by supporting programs engaged in need-based systemic change.

WEST LIBERTY COMMUNITY FUND

Granting funds from the **West Liberty Community Fund** supported Aligned Impact Muscatine for the West Liberty College Decision Day. This event is the culmination of the Course to College program, which supports students as they complete their postsecondary transition activities such as completing applications, FAFSA, and committing to postsecondary plans. In total, 46 students participated and were recognized for their plans.

During the Fall of 2017, local friends, neighbors, and leaders in West Liberty partnered with the Community Foundation of Greater Muscatine and the H. Filmore and Marjory Melick Foundation to build a perpetual fund that would provide financial grants in support of initiatives and needs within their community by establishing the West Liberty Community Endowment Fund.

MARY JO & DICK STANLEY GRANTING FUNDS

The Stanley's reach was and remains to be global. Dick and Mary Jo, in their work alongside community leaders in their hometown of Muscatine, Iowa, as well as with diplomats on the world stage, helped support international peace, the arts, engineering, family stabilization, and education, and that only just scratches the surface.

Richard and Mary Jo Stanley chose to continue to support the causes important to them through their legacy gift.

In 2021, the Community Foundation will grant locally through the Mary Jo and Dick Stanley Human Conditions Support Fund. In the future, **the Foundation will begin strategic national granting** directed at bettering global health and shelter, equity, and the environment.

"THE IDEA IS NOT TO LIVE FOREVER...

...but to create something that will."

DEB AND KEITH PORTER DONOR ADVISED FUND

Deb and Keith Porter know the importance of giving back and they have chosen to do so with a **Donor Advised Fund** through the Community Foundation. The fund gives them the flexibility to give to the causes they care most about in a timely, thoughtful fashion.

"A Donor Advised Fund links our charitable giving to the investment power and friendly services of the Community Foundation."

Note: Keith wanted to make sure we could see the Cubbies logo on his shirts. For all you Cardinals fans, please don't hold that against him.

GRIMM & PENNINGTON FAMILY SCHOLARSHIP FUND

Kurt Grimm explained the reason the families established the scholarship endowment, which funds a scholarship award for a graduating Wilton High School senior pursuing post-secondary studies in a STEM related field.

“Even though none of us children live in Wilton, or even Iowa anymore, our parents still live there, and we still **share a sense of being part of the Wilton community**,” he said.

"I think all of us have experienced the benefits of being from a small community, such as an excellent public education. We know firsthand the immeasurable value a financial helping hand can have when given to persons with potential but not necessarily the means. Since we have all benefited from others’ generosity in one way or another, **we felt this was a way we could pay back the Wilton Community for what it has done for us**.”

CLARE SCHERRER SCHOLARSHIP ENDOWMENT FUND

Clare graduated from Muscatine High School in 1987.
She was challenged, encouraged, and inspired by many teachers in the Muscatine school system; notably, Joe Preston, who taught high school German and Kathy Brooker (where, as part of her AP English class, help found the Muscatine Young Ambassadors program with Japan).

Scherrer graduated from Harvard University with an undergraduate degree in Government and, later, from the Harvard Business School with an MBA.

In high school she baby sat, worked at Happy Joe’s Pizza, and detassled corn to save to pay for university. But this wasn’t enough - she was only able to attend Harvard because of a combination of scholarships.

Clare noted, **"Given my life experience, I established this scholarship to help enable a high achieving Muscatine High School student to attend a world class institution that he or she otherwise could not afford."**

HILDA E. COLLITZ UNRESTRICTED & HOUSING FUNDS

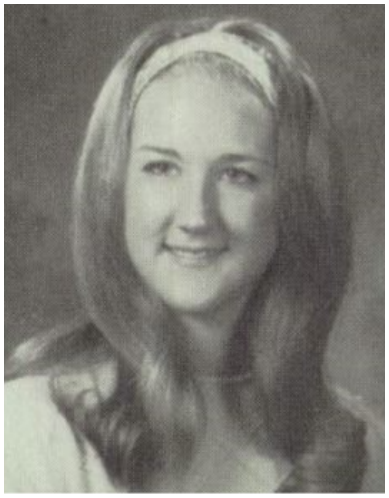
Hilda's devotion to faith and family prompted her to create a charitable remainder trust with the Foundation.

The fund provided financial stability for her daughter, Eleanor, through monthly payments until Eleanor’s passing in 2018.

The remainder of the trust was then directed to local charitable causes annually through three granting funds, two directed to housing and homelessness prevention, and one unrestricted for the Community Foundation to direct toward ever-changing community priorities.

Because of her simple act of generosity, thousands of lives in our community have been bettered; a legacy of funding that will continue each year virtually forever. These Funds have impacted all of the Foundation's initiatives to improve our community.

ANN C. PETERSEN MEMORIAL ENDOWMENT FUND



Funds from the Ann C. Petersen Memorial Endowment Fund provide flexibility to meet the community's changing needs.

Ann C. Petersen, a 1969 MHS graduate took what was considered an unlikely career path for females in the 1980's. Petersen served as general counsel to the U.S. Air Force under President George H.W. Bush and practiced law privately in Chicago on both ends of this tenure. She also served as a Chicago ward committee woman and an elder to the Fourth Presbyterian Church there.

Ann ultimately showed her love for Muscatine by setting up an unrestricted endowment fund with the Community Foundation of Greater Muscatine through her will.

THANK YOU

To each of our donors - those featured and the thousands that are not!
Your generosity and partnership fuels projects that contribute to a stronger, more vibrant community.

TOM HENDRICKS
COMMUNITY SERVICE AWARD

Muscatine Charities, Inc. established this Endowment Fund within the Community Foundation of Greater Muscatine in 2016 to honor Tom Hendricks' volunteer leadership and service to the greater Muscatine community.

Each year, nominations are submitted to recognize nonprofit organizations utilizing volunteers and the annual Tom Hendricks Community Service Award is presented to a nonprofit organization successfully implementing an important initiative which addresses critical needs or enhances quality of life.

2021 AWARD RECIPIENT

RIDING FOR SUCCESS

Riding for Success is a therapeutic horseback riding program serving clients with physical, cognitive and emotional needs. **The lives of children and adults** in the Muscatine community with special needs improve through equine facilitated activities.

Congratulations, Riding for Success! Thank you to Jenny Paetz and Christel Fowler who used their experience and love of horses to successfully implement this important initiative.

PAST RECIPIENTS:

West Liberty Youth Dream Catchers
Keep Muscatine Beautiful
Muscatine Children and Youth Choir
United Way of Muscatine
Agricultural Learning Center

A VISION TO TURN CHARITABLE DOLLARS FROM ANNUALS INTO PERENNIALS

We can't know what the future holds. And to that end, many of our committed neighbors over the years have given gifts to build an unrestricted endowment to enable the Community Foundation to be nimble, responsive, and impactful during ordinary and unusual times, this year and every year in the future.

Gifts to our unrestricted endowments are invested, and amplified through market growth, thus we are able to spend 5% each year to strengthen community priorities or, as seen in 2020, to stabilize our community through reactive and proactive relief efforts.

This is the beauty of the Community Foundation model; a gift to our unrestricted endowment allows us to be nimble the year it is received and every year after, virtually forever.

A simple analogy is your garden. When you buy and plant an 'annual' you see the returns in the single year you planted it. When you purchase a 'perennial', you pay for it once but you and those that come after you get to enjoy the beauty of your investment as it returns year after year. This is what a gift to an unrestricted endowment enables.

Bob and Jo Ann Jensen

Bob and JoAnn Jensen, who have consistently and generously gifted to area students through sizable scholarships, also unassumingly make substantial annual gifts to grow our unrestricted "Cares and Shares" endowment, for which they founded. This endowment strengthens our community this year and every year.

We thank all of those that came before us that gave a percentage of their estate or their incomes to unrestricted endowments at our Foundation. They knew they couldn't predict the future, but had the vision to gift in a way that helps **design a stronger today and all of our tomorrows for our children and our children's children.**

We are grateful!

WAYS TO GIVE

UNRESTRICTED GIVING

ENDOWED DONATION

A gift to the **Cares & Shares Forever Fund** provides the Foundation the flexibility to meet ever-changing community priorities, today and tomorrow.

NON-ENDOWED DONATION

A gift to the **Partners in Philanthropy Fund** provides the Foundation the immediate flexibility to impact current community priorities.

DONATION TO A TIDAL WAVE GRANT

A gift to flexible community granting targeted at addressing our community's biggest challenges **through upstream thinking.**

LEGACY GIVING

Donor plans to gift a percentage of their estate. This planned giving allows donors to plan how their assets **support their passions** after their passing.

TYPES OF DONATIONS ACCEPTED

CASH

STOCKS

REAL ESTATE

GRAIN

LAND

...and more. Talk to us for details.

Design Your Own Giving

Meeting your charitable goals is easy. You may choose to donate directly to the Community Foundation, to an existing fund, or you may **choose to open your own.** The Community Foundation will guide you through the process of opening a fund to support the causes that are important to you. **Here is a bit of information to get you started:**

Your Giving can be Endowed or Non-Endowed:

- Endowed funds cater to ongoing needs and will last **virtually forever.** This longevity is achieved by granting a percentage of the investment income - typically 5% - while the remainder is reinvested, making the principal, and consequently, the annual granting amount grow. These assets serve to help our community thrive today and tomorrow.

- Non-Endowed funds cater to the **needs of today** through immediate impact. This provides flexibility to grant from the fund as needed to support causes and projects throughout the existence of the fund.

Your Giving can also be Unrestricted or Restricted:

- Unrestricted funds have a **wide charitable focus** - and it will provide the flexibility to support projects to answer the changing needs that arise, aligned with improving the quality of life for the residents in Muscatine County.

- Restricted funds have a **specific charitable focus** - and it will grant to the causes and projects as designated by you, the donor. If your passion is to help make healthcare accessible, then your fund will only grant to projects aligned with such cause.

The Community Foundation will partner with you and provide options **suitable to reach your charitable goals.**
Call us at 563-264-3863.

"The Community Foundation of Greater Muscatine gives *you* the power to design the future."

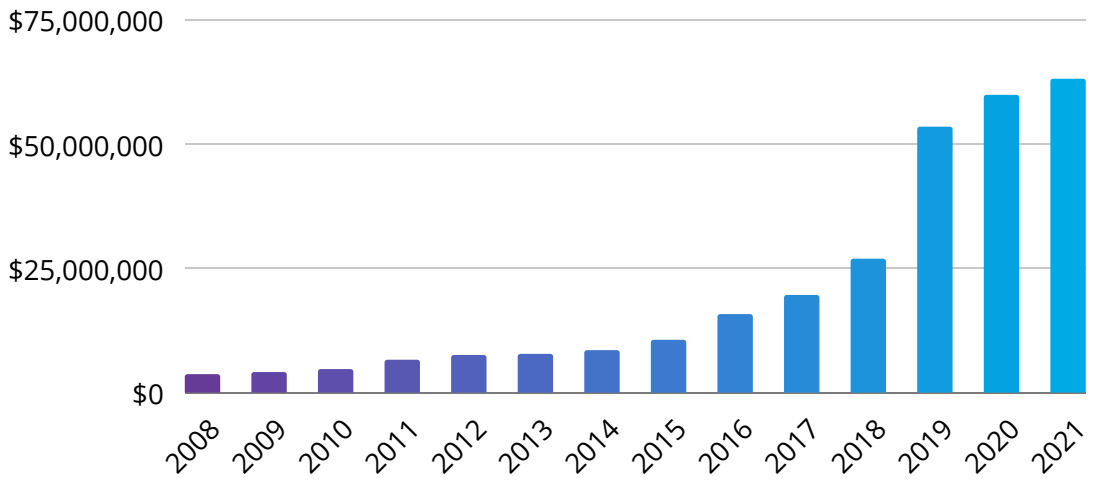
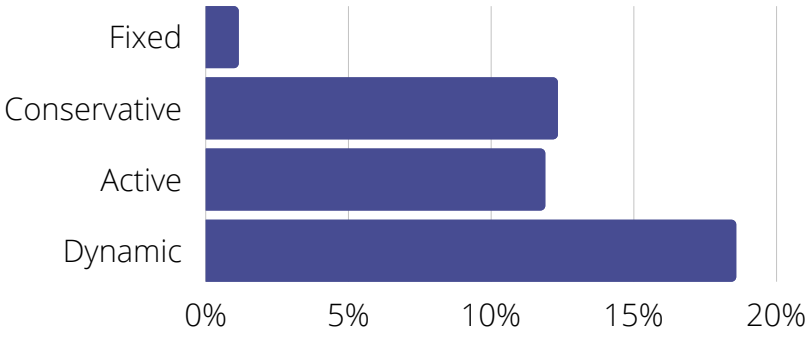
CFGM ASSET GROWTH



2020 PORTFOLIO EARNINGS



Each dollar invested with the Foundation, earned 12 cents on average last year and ...

... we kept a penny for operations and community granting

The Foundation provides the opportunity for donors to **pool funds**, which permits participation in potentially **higher return investment** instruments and reduces investment risk through broader diversification beyond that which most donors could achieve on their own.

The overall investment philosophy is to **maximize the "total return"** on Community Foundation assets while limiting investment risk consistent with donor fund type and distribution requirements.

Given the charitable nature and purpose of these assets, the Community Foundation intentionally has a conservative investment bias. Each investment portfolio intentionally represents a different risk/return profile aligned with the investment return goal.

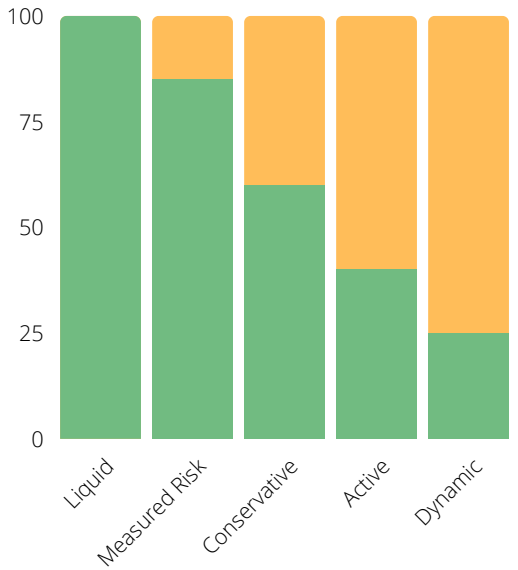
PORTFOLIO MIX

FIXED INCOME / EQUITIES



COMMUNITY INITIATIVES

WORKFORCE HOUSING

The Community Foundation recently hosted a Housing Summit with our **collaborative partners** from the City of Muscatine, Muscatine County, and Kent Corporation to discuss housing needs in our community. Debi Durham and Michael Gould from the Iowa Economic Development Association spoke to those in attendance.

Why the focus on housing? Because housing is one of our county's biggest opportunities. What we know is our strong need for housing is a good problem to have because it simply means people want to live here; we just don't have room.

Community housing is complex and requires multi-faceted engagement from rehab to rebuild. That is why the aforementioned partners recently came together to spearhead a housing plan and will be engaging other partners to approach this priority collaboratively.

HOMES FOR IOWA

Our Board of Directors identified an opportunity to partner with **Homes for Iowa**, through the Iowa Prison Industries Project in Newton, to purchase and bring a home to Muscatine.

The Homes for Iowa philosophy is "**to address Iowa's housing shortage**, train offenders in skilled trades and reduce recidivism." Prisoners at the Iowa State Penitentiary in Newton, Iowa, are learning construction trade training for a vocation upon release. The training is overseen by Master level tradesman in their individual craft. Construction of the home is performed to meet the highest standards in the state to ensure building code compliance in all jurisdictions.

The Community Foundation partnered with the City of Muscatine to receive a parcel of land at 704 Spring Street to serve as the home's lot. The house on the site, which was beyond repair, was demolished and the yard brush was cleared. The new home was delivered in September and will be sold to a first-time homebuyer.

We believe this project will serve to add a unit of quality, affordable housing for families in our community, support the Prison Industries training model, and will assist in increasing the conversation around the need for more housing in our community.

HEALTH

The Community Foundation and UnityPoint Health Trinity Muscatine are collaborating on Rural Health Access Equity in Muscatine County with plans to replace the Muscatine Health Center Clinic Building.

The Clinic was built in 1975 as part of a wider effort by local community leaders including Dr. John Parks, Stan Howe, Roy Carver, Norbert Beckey, and others to maintain our community **focus on health, ensure the continued local presence of quality primary health care in our community, and improve recruitment and retention of health care professionals** to our rural community. These goals ring as true today as they did 46 years ago. It was later formalized by Dick Stanley, Chuck Coulter, and local leaders under the Muscatine Health Support Foundation.

The Clinic rebuild will include current Family Practice, Pediatrics, Internal Medicine, Gynecology, and Surgery services. The facility has been designed to flex and meet the changes in health service delivery needs, including layout and technological changes for the coming decades. **Donations to support this initiative can be made to the Muscatine Health Support Fund at the Community Foundation.**

COVID-19 RESPONSE

Over $300,000 Donated to Helping Our Neighbors

Helping meet the immediate needs of our neighbors!

The Community Continuity Fund was created mid-March 2020 to address the emerging needs of our community as the affects of COVID-19 arose.

Community businesses, organizations, churches, and individuals gifted to the Community Continuity Fund, contributing over **$219,000**. The Foundation's matching money brought the total support to **$319,000, helping families, children and health care workers**. The Community Continuity Fund continues to receive donations to support those most impacted by the pandemic.

THANK YOU
TO OUR
HEALTHCARE HEROES!

EDUCATION

Often, we treat emergent issues, in this case hungry children, without disrupting the root cause. That ends with Fueling the Future.

Pictured: Don Doucette, Chancellor, Eastern Iowa Community College; Kim Reynolds, Governor of Iowa; Kim Warren, Director, Aligned Impact Muscatine; Charla Schafer, Executive Director, Community Foundation of Greater Muscatine; Adam Gregg, Lieutenant Governor of Iowa

FUNDERS

PARTNERS

Fueling the Future is a collaborative effort aimed at **creating multi-generational success for hungry children** and their families. Parents of elementary school children receiving weekend food backpacks enroll in six week certified nursing, computer numerical controls, pharmacy tech, or welding courses at Muscatine Community College.

Each program includes an internship with a local employer who will then hire graduates upon successful program completion. As participants complete their certificate program, and for the first six months of their employment, an economic navigator from public health will work with them, helping them access any additional services they need.

This program will serve 144 families in Muscatine County through the support of Future Ready Iowa, a grant from Health Resources and Service Administration, contributions of generous businesses and committed individuals. The University of Iowa College of Public Health is performing qualitative and quantitative research on this pilot.

Governor Reynolds made the following remarks in 2020, about the Fueling the Future program**, "This holistic approach is incredible. This something I can take to all schools."**

EQUITY

ADVISORY COMMITEE MEMBERS

We were one of the first Community Foundations in the state to establish a Racial Justice granting fund. The Fund was established in 2020 to **advance racial justice, equity, and inclusion** across Muscatine and Louisa Counties. One-half of the children enrolled in Muscatine County schools, and nearly one-third of children in Louisa County schools in 2019-2020 were non-white.

Donors committed to these initiatives contributed to the fund, and with our $25,000 in matching dollars nearly $110,000 was granted in 2020. This year the Community Foundation granted $50,000 to nonprofits working to advance racial justice, equity, and inclusion in our community.

One grant to West Liberty High School was to develop Los Cometas Mariachi

The ensemble empowers youth, builds community, and teaches culture through authentic music education.

Los Cometas Mariachi was founded in January 2021 with funding from a Racial Justice Grant, and data collected from students in May shows a significant impact of the program on **student participation** in music at West Liberty High School.

LOUISA COUNTY

The Community Foundation of Louisa County (CFLC) is an affiliate of the Community Foundation of Greater Muscatine. Through this partnership, our affiliate **serves residents of Louisa County through granting and the development of new funds.** The Community Foundation of Greater Muscatine provides policy governance and administrative oversight for the affiliate, including tax-deductibility for donors.

Established in 2005, the Community Foundation of Louisa County is the leading resource for information about charitable giving and working with nonprofit organizations to develop creative solutions to meet present and emerging needs in Louisa County.

The Community Foundation strives to create positive, sustainable change by:

- Building community capital for today and for future generations
- Providing a wide range of investment opportunities for large, medium, and small donors, from public and private sectors to support both general endowment and donor-directed funds
- Utilizing effective financial management including available tax incentives and professional services

"Some try to change their community with their opinion. We prefer to hang out with those who *take action*."

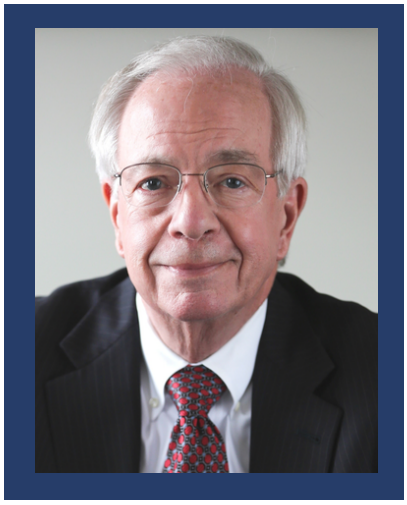
THESE FRIENDS WILL BE DEEPLY MISSED...

Dick Maeglin was a founder of the Community Foundation of Greater Muscatine and of Muscatine Center for Strategic Action.

Dick, a local businessman, had seen the idea of a community foundation in action during his travels, and thought it would benefit the long-term success of Muscatine, leveraging the gifts of ordinary people around the community.

He was a **visionary, a champion for change, a friend to all who he encountered, and a man of conviction that chose to act.** He will be deeply missed by those that were lucky enough to know him and by our community that has been visibly and lovingly bettered through Dick's actions.

In memory of Otto Richard (Dick) Maeglin
May 28, 1937 - October 14, 2020



In memory of Charles R. (Chuck) Coulter
June 10, 1940 – March 24, 2020

Chuck Coulter was a **tireless friend of the Muscatine community and his volunteerism was instrumental** in establishing systems and supporting initiatives to ensure our neighbor's health care needs are met today and long into the future.

Chuck co-founded the Muscatine Community Health Association in 1972, which he served on until his passing in 2020. Chuck also served on the Muscatine Health Support Foundation for 40 years. Today, as part of the Community Foundation of Greater Muscatine, its mission continues to improve the community health and aid the growth and development of the health care system.

Chuck was instrumental in all facets of the Muscatine Health Support Fund's origination, implementation, granting, and vision over the course of its existence.

...AND ALWAYS REMEMBERED.

MAKING THE IMPOSSIBLE POSSIBLE
